

**Children
with balloons
should
always be
monitored.**

#BeBalloonSmart

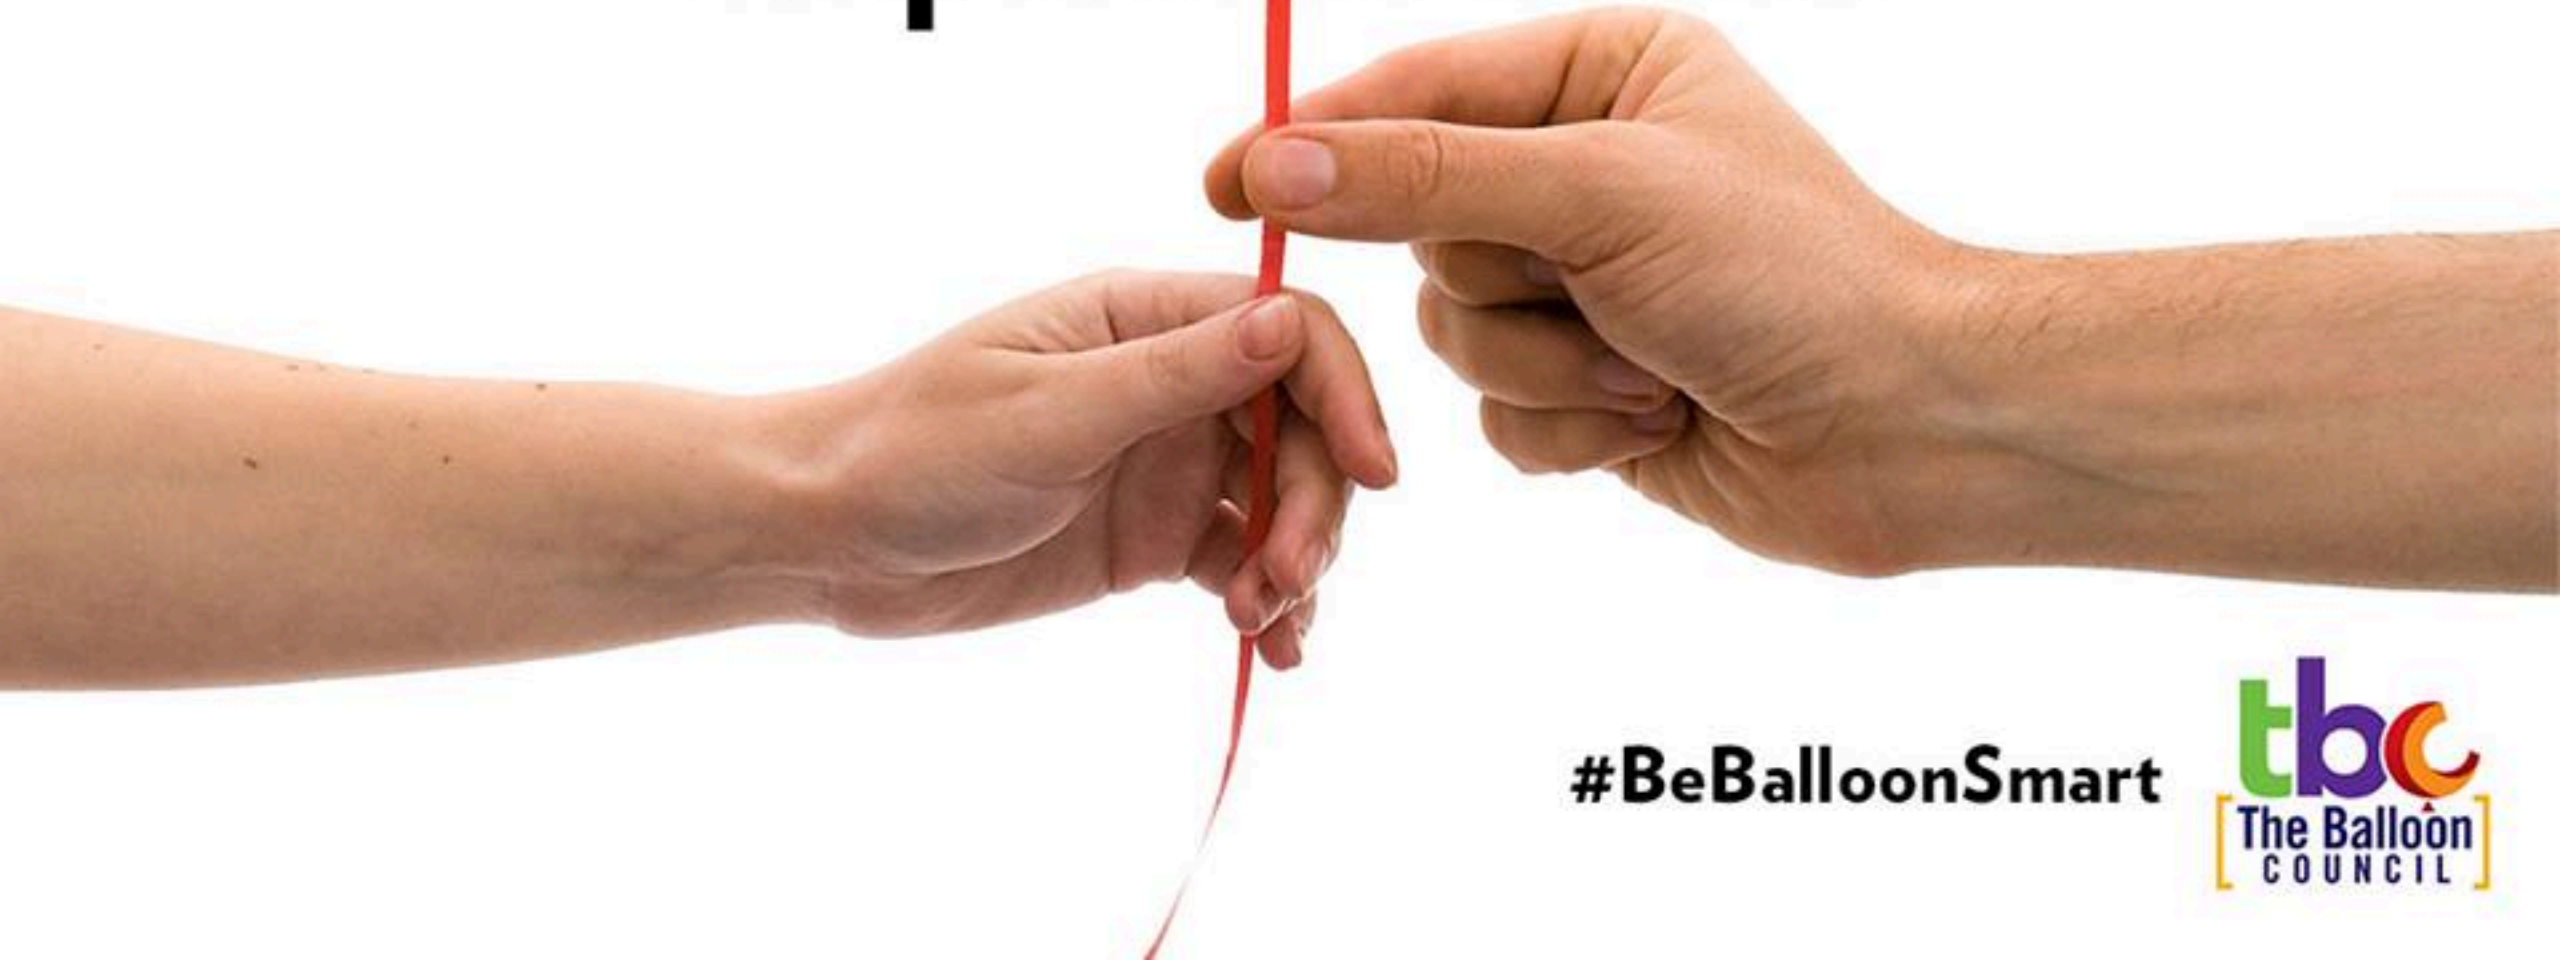

Despite the funny
voice helium can
give you,
it should
never be
inhaled.

#BeBalloonSmart

**When finished with balloons,
pop them and properly
dispose of them.**

#BeBalloonSmart

Do not release any balloons into the air – they can become tangled in power lines and turn into litter.

Don't Let Go:
Inflate. Weight. Enjoy.

#BeBalloonSmart

**Keep balloons
secured with
a string and tied
to a weight.**
